### EVERYTHING YOU NEED AT YOUR FINGERTIPS

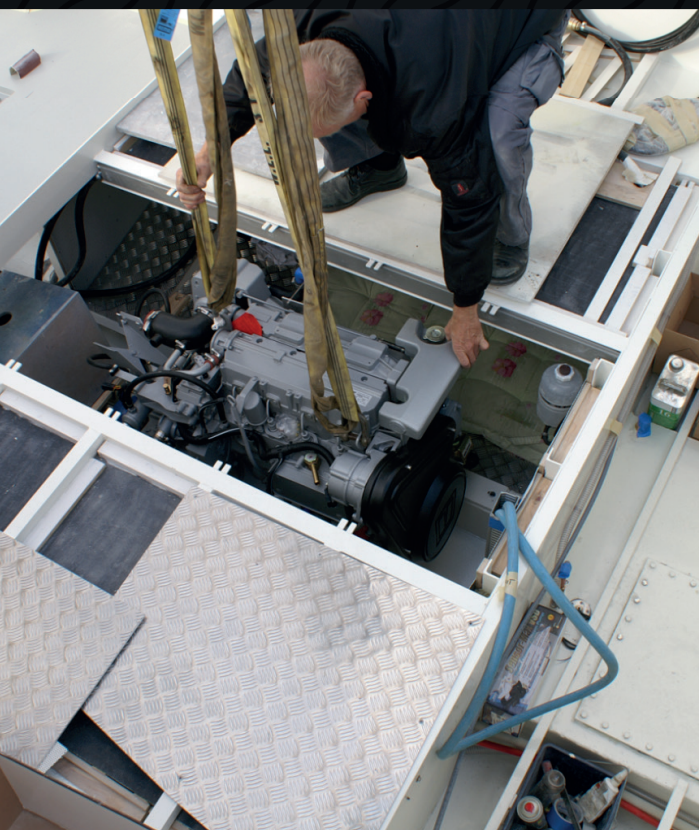

During your stay you are assured of a beautiful berth on a floating jetty, which was constructed in 2019/2020. The floating jetties will provide you with unmatched convenience and comfort.

The marina has sanitary facilities, Wi-Fi, laundry, playground, fuel station (diesel and petrol), boat crane up to 40 tons and a jetty with green strip (Zonnesteiger). Since 2020 we also have beautiful sanitary facilities with bathrooms,

where you can enjoy your privacy.

At the service station, you can empty your chemical toilet and drain waste/bilge. Each berth has its own power point.

Water taps, rescue and extinguishing equipment and a step ladder are available on each jetty.

### EXTRA SERVICES

De Kranerweerd is a **full-service** marina with its **own technical service** for all your repair and installation work. You can also order various parts from YANMAR, Victron and Raymarine, among others.

We work closely with various companies in the field of yacht maintenance, yacht carpentry and yacht painting.

Would you like to have your boat cleaned on the inside and/or outside? Want to have your teak deck cleaned? Ask us about the possibilities. You can come to De Kranerweerd marina for everything related to your boat!

## FOOD AND DRINKS

After a day of sailing you can enjoy a delicious dinner at restaurant 't Kraantje. 't Kraantje is built from old beams that for decades were part of the flood gates, giving this establishment a lovely atmosphere.

Moor your boat and enjoy the beautiful terrace on the water. Host and chef Peter Platje and his team are happy to treat you to a celebration of flavour in an unforgettable setting.
